

Short Report from Hungarian Sign Language Bible Translation Group

This year we're still working to translate the stories of Acts. We prepared many from the easy to understand stories. I sent to Zsófia 6 new recordings to make the written English form and forward them to our new consultant.

For which I am very grateful to God, when I see how we can use the bible translation to reach the Gospel for Deaf. During the Bible study I can see what a big different when Deaf really and deeply understand the message by the sign language translation. I've known some of them for a long time. And now I see how their thinking and life change by God's word. We organized many mission trip in Hungary and presented the Sign Language Bible. Deaf were happy, and hungry for the Gospel. Just an example: We met Deaf in Debrecen. One man was very ill, he had a cancer. First time he understand the Gospel, and asked prayer. Two weeks later my Deaf brothers came back and saw him again. Third time he called the Deaf pastor to visit him. That time he accepted Jesus. The next week he died.

We have to take a short break in our work, because I have to find a new place and move the office. I hope in September our new office will be arranged and we can start the video recordings again.

I want to thank for your support and ask your prayer and encouragement.

In Jesus,

Andrea Bokros
